

Demco

Never make the trucks wait

STANDARD FEATURE
ON 850 & 1050 BUSHEL
GRAIN CARTS

ADJUSTABLE SPOUT

Demco
850 & 1050 bushel
grain carts redefine
harvesting efficiency

Loading an entire semi-truck load of grain with a Demco grain cart is more than speedy – **2 ¼ minutes for the 850, 3 minutes for the 1050 bushels model.** We've also made it less challenging. The 18" auger projects out and forward so the operator has a clear view of the grain flow. And at the end of the auger we've added an adjustable spout so the flow can be directed from side to side.

The construction of the 850 & 1050 bushel grain carts are equally impressive. Quality components and heavy duty materials are joined together with superior design and manufacturing processes. The strength and durability of a Demco grain cart will perform for many harvest seasons to come.
