

Demco CONQUEST®

1600 gallons - 60', 90' or 120' spray widths

FEATURES

- The 60', 90' or 120' multi-width spray boom demands precision laser cut tubing and trusses. Its superior strength and clean design deliver a smooth and consistent in-field ride. Boom can be folded to spray in a 60', 90' or an unfolded 120' width.
- A unique rear folding center section allows a narrow transport width of 12'.
- Hydraulic glide suspension system (with puncture proof tires) makes the boom wings weightless when used at 90' and 120' delivering a superior ride.
- Self-compensating center pivot shock/spring design provides an exceptional boom ride allowing a steady spray pattern.
- Parallel linkage height-adjust system with a nitrogen charged accumulator softens the boom ride. Boom height adjusts from 20" to 67".
- Wet boom plumbing offers a choice of either single or triple drip free diaphragm check nozzles.

**Pendant
grip boom
control
available**

**120' boom transport width is 12'. Transport height is 11'- 2".
Overall length in transport position is 28' - 1".**
